

Cardiovascular Disease (CVD) Prevention Patient Experience Survey

Detect. Review. Protect.

To help us to evaluate and improve services, we would appreciate your feedback if you received a CVD check today by completing the survey. Simply scan the QR opposite.

SCAN ME

Did you receive any of these CVD checks today?

- a) Blood pressure check
- b) Pulse check
- c) after pulse check, KardiaMobile ECG Device for detecting atrial fibrillation (AF) – results in 30 seconds
- d) Cholesterol check – single finger-prick blood test with while you wait results in approx. 15 mins

About the survey:

- ✓ It's anonymous.
- ✓ It has 20 questions, all with tick-box answers.
- ✓ It should only take around five minutes to complete.
- ✓ It asks about you, your experience of having the check today, and the information you received.

Note: All of the information collected through the survey is completely anonymous and will be used to evaluate and develop NHS services. The non-patient identifiable survey data will be received directly by Kent Surrey Sussex Academic Health Science Network, who will share the surveys with the British Heart Foundation to analyse the data and create a summary report every three months. This will be made publicly available and shared on the BHF and KSS AHSN websites.
